

ipads explained

Confused by technology and jargon?

Does help from the grandkids leave you perplexed?

We run small groups with a maximum of 12 people in our fully equipped bespoke classroom. Follow the tutor with the aid of a whiteboard. We cater for all levels of experience whether you're an absolute beginner or have more experience with a desire to learn new things.

Bring your iPad along and discover how to get the most from it. *No question is too silly.* Come and give it a go before you say no!

The next 6 week course starts Thursday 25th January 12 pm to 1:30pm and costs £40.

Fun, Friendly & Informative
